

Waterways: clean-up

Name

Represent the data collected in your investigations in a graphic form.
Use a free online graph maker or draw your own.

- Construct a column, bar, pie or picture graph to record gathered information
- For a free online graph maker use <https://nces.ed.gov/nceskids/graphing/Classic/>
- Compare and discuss, whether observations were expected
- Describe the trends shown in collected data
- Now that this data has been collected and analyzed how might this information gathered inform you as a Junior Landcarer to take future action?
