

## OBSERVING WHAT'S IN YOUR HABITAT

Suyin has a small backyard and loves to sit under a tree and watch the ants scuttle around, listen to the birds chattering to each other and smell the clean washing drying on the line.

Tom lives in an apartment. He loves to sit on his balcony with his older brother and listen to the sounds in the street below, watch the changing clouds and smell the yummy dinner being cooked by his neighbours.

### INSTRUCTIONS

Go outside, sit quietly and use your amazing senses!

What can you see?

What can you hear?

What can you smell?

Write or draw.....
