

WRITE TO A FRIEND

Amir has challenged himself to reduce his family's waste usage. They recycle as much as they can and they try to buy products that have minimal packaging. Amir and his Dad have also set up a worm farm on their balcony for leftover food scraps. Amir wants to get his friends involved in his waste challenge too!

INSTRUCTIONS

Design a postcard and send it to your friends to share ideas about waste management.

Print out the postcard (hopefully on recycled or scrap paper), colour and decorate it! Write a message to your friends.

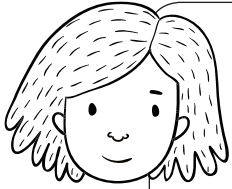

Cut out the postcard, fold and glue it together. Either hand deliver the postcard or address it and stick on a stamp to post.

Remember if you want a response ask a question or ask for a reply.

WRITE TO A FRIEND

Amir likes being involved with Scouts and joining activities with his Dad in their local Coastcare group. Amir enjoyed exchanging postcards with his friends about ways to reduce, recycle and reuse waste. He now wants to expand the idea to his other passions.
