

# Recording observations

## Observation 1: Starting the experiment

Today's Date: .....

<p>What do you see? Draw what you see.</p>	<p>What do you wonder? Write what are you thinking about.</p>
Empty space for drawing	Empty space for writing

## Observation 2: Comparing

Today's Date: .....

<p>Use a drawing to show the change in your plant. Compare how it looked when the experiment started to how it looks now.</p>	
<p>Draw how it use to look.</p>	<p>Draw what it looks like now to show the difference.</p>
Empty space for drawing	Empty space for drawing

# Recording observations

## Observation 3: Change

Today's Date: .....

Draw to show the change in your plant over the last three observations. Pay attention to the roots, stems and colour of the water.

How it first looked.	How it looked last time.	How it looks now.

## What I wonder:

Write down what you are thinking about.

## What happens next?

Write or draw what you are planning to do next with your plant.
