FOOD PRODUCTION: Grow your own pizza

Landcai

Production requirements:

Use the ingredient cards to find out more about where the ingredients for the pizza come from. Select toppings from your pizza and record what you need if you were to grow them yourself.

Topping	Growing Requirements	
Example Topping (ie cheese)	I would need a cow and some land. I would need a lot of grass and water for the cow. I would need to care for the cow and milk it every day.	

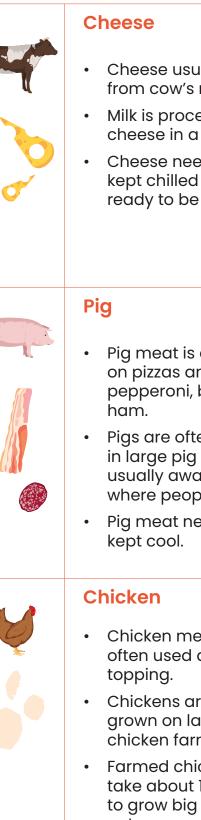

Grow your own pizza

Ingredients cards

- Cheese usually comes from cow's milk.
- Milk is processed into cheese in a factory.
- Cheese needs to be kept chilled until it is ready to be used.
