

Vision

Creating your vision for an Indigenous plant-use garden

The five elements of your vision

- Connection with First Nations Peoples and culture
- Connection with environment and space
- Increasing biodiversity
- Use of plants from the garden
- Plan to continue to care for your garden

Connection with First Nations Peoples and culture

Who are the Traditional Owners of the Country your garden space is on? How will you contact them?

.....

.....

.....

.....

How will you be including First Nations Peoples in the different stages of the garden? (planning, construction, harvesting)

.....

.....

.....

.....

How will this garden improve understanding and appreciation of First Nations Peoples culture and the connection to the land, water and sky?

.....

.....

.....

.....

Vision Activity Sheet

Connection with environment and space

What are the different ways that you could use your new garden space?

What are the health and well-being benefits of connecting to nature?

Increasing biodiversity

How will the garden increase the biodiversity in your space?

What are some of the local animals, including birds and insects that you may attract?

Use of plants from the garden

How are you going to use the plants from the garden?

Caring for your garden

How will you care for your garden?
