

# Site Assessment

Name ..... Location .....

Imagine what a Indigenous plant-use garden would look like in this space. Draw the boundaries both natural and built areas of your location.

Look for these features and mark them on your map below.

water sources	soil type <i>clay/loam/sand</i>	vegetation	built features
topography <i>(features like slopes and depressions)</i>	wet areas	dry areas	windy areas
protected areas	shaded areas	sunny areas	high use areas

Is there anything else to note about this location?

.....
