

Harvesting

Choose one plant you have harvested to answer the questions below.

Draw, take photos or create a video of each step of harvesting to describe what is happening. You could create a flow chart, refer to the example given below.

eg. *Harvesting River Mint Mentha australis*

What part of the plant have you harvested?

- root
- leaf
- nectar/flower
- fruit
- seed

Describe how your plant is going to be used.

How you would prepare your plant material for use?

What have you done to ensure you have harvested your produce sustainably?
