# Perimeter and Area

Junior Landcare

In this activity you will map the proposed site for your yarning circle and calculate the perimeter and area of your space.

Perimeter is the measurement around the outside of a shape.

Area is the space inside the shape.

Use grid paper to draw your yarning circle and help calculate the perimeter and area of your space. Think about how you will use scale. For example, does 1CM = 1M?

**Orientate your drawing with an arrow pointing north.**
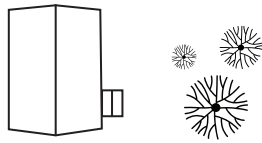

Perimeter and Area

Mapping:

Use the space below to draw a bird's-eye view of your yarning circle:
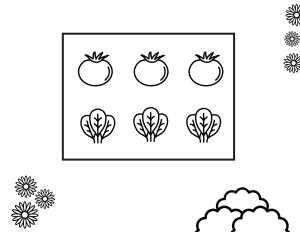

Include:

The yarning circle

Trees, buildings and other features

Gardens and natural areas

Paths and access.
